March 2005 Benchmark

Table includes the self-employed, unpaid family workers and farm employment.

N/A - Information is not available.

Excludes "All Other" Categories.

[1] Job openings are the sum of new jobs and net replacements for the total 10 years. Some occupations may have declining employment during the projection period due to industry change, however, they have a substantial number of job openings due to the need for replacements. Net Replacement openings are an estimate of the number of job openings expected because people have permanently left an occupation. It estimates the net movement of 1) experienced workers who leave an occupation and start working in another occupation, stop working altogether, or leave the geographic area minus 2) experienced workers who move into such an opening. It does not represent the total number of jobs to be filled due to the need to replace workers.

[2] Median Hourly Wage is the estimated 50th percentile of the distribution of wages; 50 percent of workers in an occupation earn wages below, and 50 percent earn wages above the median wage. The wages are from the first quarter of 2006 and do not include self-employment nor unpaid family workers.

[3] Education & Training Levels:

(1) LLD/MD Degree=First Professional Degree

(2) PhD Degree=Doctoral Degree

(3) MA/MS Degree=Master's Degree

(4) BA/BS + Experience=Bachelor's Degree or Higher and Some Work Experience
